

## My Green Nappy – [Nappy Style Windows](#)

Let's get your shop in the Nappy Style Windows – or updated in them!

A Nappy Style Window is a directory of online shops that offer a specific product or service in the eco-nappy niche. They are unique in being a comprehensive resource for shoppers looking for modern cloth, hybrid and eco-disposable nappies, and related nappy accessories.

Please run down the list and leave the ones you want to be on, delete the ones you don't. Or highlight those you want, not those you don't – whatever suits your computer!
